THE PROBLEM

3-4

WEEKS
of manual prep

\$10K+

CONSULTANT COST
for a polished deck

90%

COLD EMAILS
go unanswered

- ① Research is scattered across 20+ browser tabs and Google Docs
- ② Market sizing is guesswork — investors see through it immediately
- ③ Competitor analysis is done manually, often outdated by demo day
- ④ Outreach emails are generic templates with near-zero conversion

THE SOLUTION

FundReady AI

An agentic AI that takes your startup idea and automatically generates an investor-ready deal room — backed by real, live market data.

Live Research

Apify scrapes competitors, funding rounds & market news

AI Analysis

Claude synthesizes TAM/SAM, ICP & positioning strategy

Box Deal Room

Organized, shareable folder ready to send to investors

Chat Refinement

Ask follow-ups, iterate on any doc in real time

HOW IT WORKS

TECH STACK

Apify

Data Layer

Web scraper actors — pulls live data from ProductHunt, TechCrunch, Google News, funding databases

Box

Storage Layer

Structured deal room: secure enterprise file storage, shareable link to investors with one click

AWS

Compute / LLM

EC2 + FastAPI backend — Anthropic Claude Sonnet 4.6 for LLM reasoning, analysis, and document generation

Agent Framework: LangGraph • Orchestration: FastAPI • UI: React • Language: Python 3.11

WHY WE WIN

Real Data, Not Hallucinations

Apify pulls live competitor & funding data. Judges can't say 'it's just ChatGPT'

Box = Investor Deal Room

Not just saved files — a shareable, VC-grade due diligence folder, naturally

Real Painful Problem

Every solo founder spends 2-4 weeks on this manually. We do it in 5 minutes

Hits All 3 Sponsor Prizes

Box (filesystem for agents) + Apify (scraping) + AWS (compute + LLM)
